Expertise

- JAVASCRIPT
- ANGULAR
- Reactjs, Redux
- CSS
- DSA
- MySQL
- HTML

Tools

- VS & VS Code
- MS SQL
- Azure DevOps
- Git
- Postman
- SonarQube

Hemant Dixit

Frontend Developer

Seeking a role as a front-end developer so I can use my thorough knowledge of programming frameworks and development software.

Experience

○ Nov 2020- Present

Accenture | Gurugram

- **SecuredSharedID**
- **Roles & Responsibility:**
- Implemented and worked on POC of FIDO Key TAP Code feature for more secure, hassle-free and password less authentication for different IDs from scratch.
- Merging codes from Epic, Master branches, deploying in different environments and monitoring pipelines using Azure DevOps.
- Representing the team's objectives, goals, achievements and discussing road map for every quarter during Release Planning.
- Skilled in writing Stored Procedures and other database queries which helped in enhancing the speed of application and conversion of IDs using Microsoft SQL Server.
- Resolved SonarQube errors and code smells to maintain the code quality.
- Gathering requirements from clients and delivering them on or before deadline with effective team management and teamwork within and outside team.
- Ability to work in a fast paced and Agile development environment for better delivery of project goals
- Conducted KT sessions to help peers in resolving their issues and blockers.

• **Tech Used:**

- Experienced with front-end technologies like Angular 9/12, HTML5, Typescript, CSS, Bootstrap in designing and developing dynamic and completely responsive web pages.
- Worked with back-end technologies like ASP.NET MVC which generate models and controllers.
- Better understanding working with Postman for testing and modifying APIs
- Using C#, implemented and configured Batch jobs for various operations like verifying, updating, checking last password change dates, delete etc.
- Proficiency in testing front-end applications with 100% code coverage using Jasmine karma, protractor, and automated browser testing
